

The background of the slide is a waving American flag with red and white stripes and a blue field with white stars.

ObamaCare

By: Miranda Gaut

- **The document was signed into law by Barack Obama on March 23 2010**
- **It was also upheld in court on June 28 2012**

The official name for “Obamacare” is The Patient Protection and Affordable Act.

Obama’s goal was to give Americans access to more affordable insurance and to reduce the growth in health care spending in the U.S.

ObamaCare: What Is It, and What Does It Mean to American Health Care?

- **There are around 44 million Americans who are not able to get health insurance.**
- **So Obama has created a system so that Americans can have a more affordable way for them to get it, and not get turned down.**

***If you already have
insurance you can keep it.***

***But, by January 1st 2014, all
non exempt Americans will
pay a fine on their taxes if
they don't have insurance.***

Low to middle incomes will become more affordable, however americans who are making 400% or more you will be forced to pay more money. So obama really just wants to help out the lower to middle class, not all of America.

In order for Obama and his party to rescue themselves, they must do the following in a few months~

- **Make the website HealthCare.gov work Nov. 30**
- **Convince several million Americans to sign up in the healthcare exchanges**
- **Convince the Americans who had catastrophic coverage or higher cost coverage, that they are better now off**
- **Make sure that, in all this confusion, there is no gap in coverage for those forced off their old plans**

~The Pros of ObamaCare~

- **Millions of Americans will have access to affordable healthcare**
- **Small businesses can get tax credits up to 50% of their employee's health insurance cost**
- **Young adults can stay on their parent's plan until 26**
- **ObamaCare can help slow the health care spending**

The Cons of ObamaCare

- in order for there to be affordable care for everyone there will be more taxes
- young people tend to be more healthy and not need as much hospitalization as the elderly

In 2010, 256.2 million Americans already **have insurance. 49.9 million is the total number of people **without** insurance, but only 18.4% of the uninsured are younger than 65.**

One of the main reasons for Americans to not be insured, is that they lost their job. In fact in 2010, only 15% of uninsured Americans were fulltime workers.

**Another reason for
Americans to not have
insurance is because they
can not afford it. And that is
what ObamaCare is all about.**

Reasons for Being Uninsured among Uninsured Nonelderly Adults

Figure 1

SOURCE: KCMU analysis of 2013 NHIS.

That pie graph shows the reasons why Americans don't have coverage. The two most common are, 'not affordable', and 'lost job.'

- **Through the past decades the number of uninsured Americans was going up**
- **But ObamaCare was put into law and the number of uninsured Americans is going back down.**

~America's Opinion~

Some Americans feel that they are being forced to buy something that they don't need.

However, some also think this is going to be very helpful.

Views of ACA Largely Unchanged This Year

As you may know, a health reform bill was signed into law in 2010. Given what you know about the health reform law, do you have a generally favorable or generally unfavorable opinion of it?

This chart shows the Americans who are favorable, unfavorable, or don't know / refused to vote.

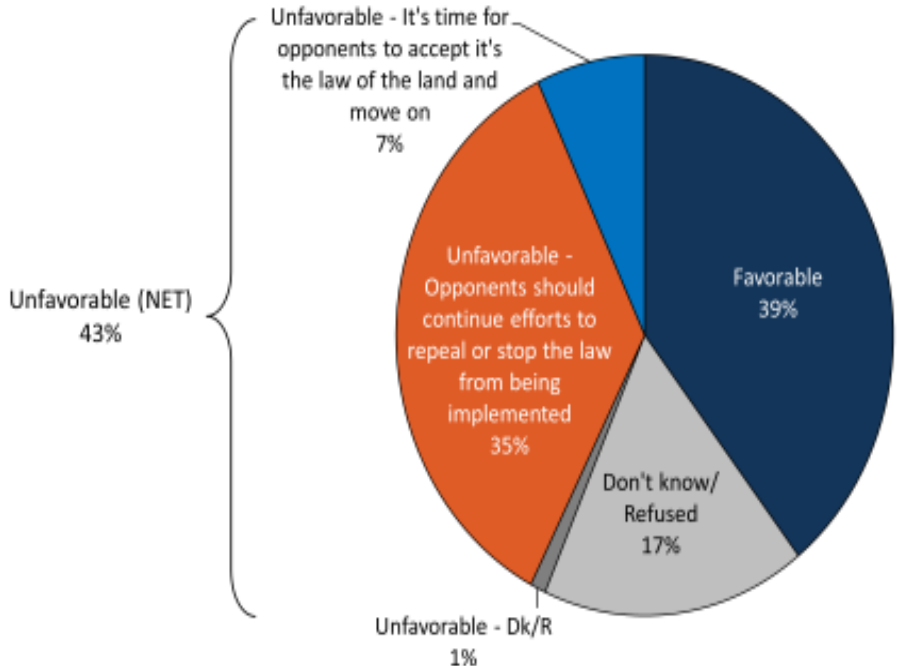

Most Who View ACA Unfavorably Want Opponents To Continue Efforts To Stop It

As you may know, a health reform bill was signed into law in 2010. Given what you know about the health reform law, do you have a generally favorable or generally unfavorable opinion of it?

Asked of those who have an unfavorable opinion: Which comes closer to your view?

This graph shows the Americans opinion on ObamaCare in 2010.

This pole found that, most of the people who were against the new law also wanted to fight against it.

SOURCE: Kaiser Family Foundation Health Tracking Poll (conducted September 12-18, 2013)

Why is it so important to have health insurance?

Everyone needs health care for the future, because any accident could happen.

- Just one minor emergency in the ER and you could be payin from \$500-\$800.**
- Or maybe a family member gets sick, that would be at least \$1,200**

Not Convinced Yet?

- **A broken leg would cost up to \$7,500**
- **Average amount for childbirth would be \$8,800 and for a c-section delivery would be well over \$10,000**
- **And a full hip replacement is going to cost you \$32,000**
